

UD7007 UNIVERSAL BLU-RAY HD PLAYER

green standby
eco friendly

Enjoy fabulous quality Blu-ray video and then stream audio (incl. FLAC) and video files (including DivX plus HD files) from your home network or Internet. The UD7007 can give you this universality because it's not only a Blu-ray and DVD player it is also DLNA 1.5-certified, and even provides access to Netflix video on demand and YouTube Leanback online services. To ensure the best analogue stereo audio quality from CD and SACD, it includes the Marantz HDAM audio modules and uses specially customized components all on a dedicated audio board. It also offers you the choice of balance XLR or Cinch audio output. The fast loading high-quality mechanism is shielded by an aluminium top panel and a steal chassis bottom. The cabinet is also very rigid and an additional bottom plate adds extra strength to eliminate vibration. Also, the electronics are divided into five separate sections to minimise interference and maximise audio-video quality. In addition, the two HDMI 3D supporting output ports optimise flexibility in setup and in fine-tuning performance. But as with all Marantz players, musicality reigns supreme so you won't be surprised when you find a "Pure Direct" mode, to ensure the best possible performance from CDs and even SACDs.

Main Features

- Plays Blu-ray Disc, DVD, DVD-Audio, SACD and CD
- Network streaming for audio and video (DLNA 1.5 certified)
- MP3, WMA, FLAC HD, DivX HD, AVCHD and JPEG compatible
- Full control with Marantz Remote APP in combination with new generation Marantz Receiver
- 32bit/192kHz DAC and high quality stereo analogue audio stage with HDAM
- Balanced XLR & gold plated RCA output terminals
- Rigid cabinet with additional bottom plate
- 2x HDMI out to separate audio and video
- Fully shielded fast loading mechanism and no fan construction for silent operation
- YouTube Leanback and Netflix VOD support
- HDMI - 3D ready, CEC
- HIGH SPEED HDMI™ cable included
